Annual Flower Mixes

08209—GRANDPA JUNG'S FLOWER & BOUQUET—This is J. W. Jung's own "secret recipe" of easy-to-grow annual flowers. It provides garden color and flowers for cutting all season. (A) Pkt. (2 grams) \$2.25

08211—GARDEN SPLENDOR FLOWER MIX—Includes many types of marigolds and zinnias, plus other easy-to-grow annuals for colorful borders and splendid floral arrangements. (A) Pkt. (100 seeds) \$2.25

Table with columns: LINE #, ITEM #, SIZE CODE OR PKG SIZE, QUANTITY, NAME OF ITEM WANTED, PAGE #, PRICE. Includes a 'TOTAL OF ABOVE (carry to front page)' section at the bottom.

Seedmaster® Seed Dispenser 53072—This device takes the guesswork out of sowing even the tiniest seeds. A built-in vibrator activated by turning a wheel on the handle causes seeds to flow through interchangeable baffles. The seeds drop off one by one. Seed waste and need for thinning is virtually eliminated. Includes 4 baffles for an accurate flow of all seeds. \$14.95

Mini Seedmaster® Seed Dispenser 53073—Plant small seeds exactly where you want them with this plunger-type seed dispenser. Practically eliminates the need for thinning. \$9.95

Free Standard Shipping on orders over \$100 through February 25, 2024.

Have a friend who loves to garden? We'd be happy to add them to our mailing list.

Beneficial Cover Crops

Improve garden productivity with the use of cover crops. They add organic matter to the soil to build fertility, improve texture, choke out weeds, prevent erosion and provide a habitat for beneficial insects.

- 04305—BUCKWHEAT—Fast growing. Chokes out weeds and breaks up compacted soil. Sow anytime throughout the summer and turn under as it flowers (about 30 days). Sowing rate: 1 pound per 500 square feet; 50 pounds per acre. (P) Lb. \$7.45; 2+ \$6.75 ea; 10+ \$5.75 ea; 20+ \$4.75 ea; 50+ \$3.95 ea
04370—WHITE DUTCH CLOVER—Use this low-growing perennial as a "living mulch" between beds and garden rows. Prevents erosion, builds up nitrogen and competes against quack grass. Also use for renovating old lawns and areas with poor clay soil. We recommend inoculating before planting. (Inoculant sold below). Sowing rate: 1/4 pound per 500 square feet; 10 pounds per acre. (M) 1/4 lb. \$7.45; 2+ \$6.75 ea; 10+ \$5.75 ea; 20+ \$4.75 ea; 50+ \$3.95 ea
51271—CLOVER INOCULANT—Treats 50 pounds of seed. \$12.95
04317—WINTER WHEAT—A cool-season cover crop ideal for suppressing weeds, controlling erosion and adding organic matter to soil. Also provides valuable forage for wildlife and other animals. Plant in late summer to mid-fall. Till under in spring. Sowing rate: 1 pound per 1,452 square feet; 30-50 pounds per acre. (P) Lb. \$4.95; 2+ \$4.25 ea; 10+ \$3.25 ea; 20+ \$2.50 ea; 50+ \$1.50 ea
04326—NATIVE GRASS TALL MIX—(Zones 9-10)—Ideal for prairie restoration, this mix of tall, warm-season perennial grasses provides habitat for wildlife and natural water filtration, as well as wonderful texture and fall color to non-land-scaped areas. Contains a combination of big bluestem, Indiangrass and switchgrass. Somewhat tolerant of both drought and flooding. Sowing rate: 10-20 pounds per acre. (N) 1/4 lb. \$15.95; 2+ \$14.45 ea; 10+ \$12.95 ea; 20+ \$11.45 ea

Specialty Animal Food Crops

04322—KEYSTONE DEER & TURKEY SEED MIX—Feed your wildlife friends. Mix contains ladino white clover, New Zealand white clover, vernal alfalfa, orchardgrass and perennial ryegrass. Great for dry areas and can tolerate some dampness as well. Likes full sun. Plant April to about June 1st or September to October 1st. Sow at 15 pounds per acre.

(N) 1/2 lb. \$8.25; 2+ \$7.45 ea; 10+ \$6.45 ea; 20+ \$5.45 ea

Mangels and Sugar Beets

Mangels and Sugar Beets are nutritious feed for sheep, poultry and cattle. Sow seeds early in spring, 1" apart and 1/4" deep. Begin thinning when plants are 3" high and continue until roots are 10" apart. About 800 seeds per ounce. One ounce plants 100' of row.

02605—MAMMOTH LONG RED MANGEL S.—(110 Day)—Oval to spindle-shaped roots up to 20 pounds each are dull red above ground and clear red below with white flesh. Contains less water and more sugar than any other variety. (A) Pkt. (1/2 oz.) \$4.75; (M) 1/4 lb. \$12.75

02610—NEWBIE SUGAR BEET—(110 Day)—This open-pollinated sugar beet produces edible roots and tops, with the taproots sometimes reaching soil depths of 5'-8". Ideal as a forage or cover crop. Can tolerate temps down to 20°F. (A) Pkt. (300 seeds) \$3.45; (C) 1,000 seeds \$6.95

THIS FLAP IS GUMMED. PLEASE MOISTEN GLEE STRIP AND MAKE SURE IT IS PROPERLY SEALED. REMINDER: Have you included your complete name, address, zip code, phone number, and check or credit card information? THANK YOU FOR YOUR ORDER.
